

# CARE: EXPLORING HIERARCHIES AND SOCIAL TRANSFORMATIONS

## Workshop Series

Department of Social and Cultural Anthropology, Universitätsstraße 7  
08./09. April and 11./12. November 2019

This series of two workshops takes care as an in-road to look at hierarchies and social transformations. Exploring care ethnographically allows for insights into reconfigurations of inequalities and ways of belonging.

**Day 1:** The two invited speakers will present their work for 45 minutes followed by a discussion.

**Day 2:** The two speakers meet with students (MA, PhD) and postdoctoral researchers and discuss together selected texts and theories.

### Workshop organisers:
